## Architectural Panels

Natural Veneers  
Engineered Veneers  
Commodity Panels

# Natural Veneers

Custom panel lay-ups allow you to specify:

- Specie
- Size
- Grade
- Cut
- Core Preferences
- Veneer Matching

*Stitched and pressed per order in 2-3 weeks*

# Engineered Veneers

- First quality Italian production
- Variety of patterns to choose from
- Raw veneer is stocked in South Carolina for custom fabrication and prompt shipping
- Veneers may be stained, over stained, or custom finished
- Can be laid up on your choice of Core

# Our Design Process

## Define

Collecting space information such as dimensions, color scheme, etc.

## Ideation

Sketching and brainstorming in different patterns.

## Render

Rendering in the space.

## Finalization

Finalizing the design and the order for the customer.

## Test

Testing Kerf and making the prototype.

## Production

Produce, cut to size (CNC), and complete panels (ready for finish)
